THE
QUEEN'S COLLEGE,
OXFORD.

Admission,

APPPLICATION for Admission should be made to the Provost, and should state the following particulars: (1) the Candidate's name in full; (2) the date and place of his birth; (3) the name and address of his parent or guardian; (4) the Term in which he wishes to commence residence. The application should also say (5) whether the Candidate wishes to live in or out of College; (6) whether he wishes to regulate his expenses on the Ordinary or on the Prepayment System (see page 6); and (7) should be accompanied by testimonials of character for the three years last preceding from his Schoolmaster or Tutor.

Residence may be commenced in any Term. Priority of application gives a preference in the choice of rooms.

Candidates whose application have been accepted by the Provost, are admitted without examination, if they hold a certificate exempting from Responsions; or their names can be entered for Responsions by the College without their being matriculated, and, if they pass, they are admitted without further examination. Other Candidates are examined by the College in the subjects of Responsions. This examination is held on the Thursday in the sixth week of the Term preceding that in which they propose to commence residence; and a supplementary examination is held, if there are Candidates, on the day before that on which the College meets in each Term.

The subjects of Responsions are (1) Arithmetic; (2) Algebra to Simple Equations *or* the Elements of Geometry

(3) Greek and Latin Grammar; (4) Latin Prose; (5) *either* a Greek book, such as Euripides, Hecuba and Alcestis, and a Latin Book, such as Caesar, Bellum Gallicum I-IV., *or* Unprepared Translation from Greek and Latin.

Residence in College.

Rooms in College are always assigned to Undergraduates on coming into residence, unless they have obtained leave from the Provost to live out of College. Undergraduates who wish to do this, must, if they are under age, obtain the authorisation of their parent or guardian. In ordinary cases the College discourages residence in lodgings at the outset of an Undergraduate's career.

Expenses.

On coming into residence an Undergraduate pays an entrance fee of £5 to the College; and on being matriculated

he pays £3 10s. to the University, unless he is a Bible Clerk, in which case the fee is 10s.

An Undergraduate who resides in College is at liberty to choose between the two following methods of regulating his expenses:—

1. He deposits caution-money with the College, which serves as pre-payment for a Term, and is £15 if he holds a Scholarship or Exhibition whose value is more than £60 a year; otherwise, £30. Those who have deposited £15, receive back £5 on taking M.A., and £5 more, if they compound as Masters. Those who have deposited £30, receive back £10 on taking B.A., £10 more on taking M.A., and £5 more on compounding. The balance of caution-money is returned whenever the name is removed.

The charge for the rent of furnished sets of Rooms, varies from £2 10s. to £7 a Term, according to size and situation.

Residents have complete freedom in regulating their expenses with regard to meals, but all Undergraduates resident in College are required to dine in Hall five times a week, those living out of College four times a week.

2. Those who prefer to live in College on a system of fixed charges deposit £10 caution-money. (This is returned when the name is removed from the books, and £5 are returned on compounding as a Master.)

They also make a pre-payment of £28 at the beginning of each Term. This payment covers University Dues and all College expenses except fuel, light, laundress, groceries and beer. Breakfast and lunch are taken in their own rooms; they dine in Hall with the other Undergraduates. Rooms of the cheaper class are assigned to them ready furnished. If these are already occupied or better sets are desired by those who prepay, a small terminal charge is made for extra Room Rent. If

they entertain friends they are charged according to a tariff; and a separate account is kept of these expenses, and of those for fuel, light, laundress, groceries, or beer. Further details may be had from the Junior Bursar.

Undergraduates who on coming into residence are advised to live in lodgings, and who elect to battel deposit £10 as caution-money.

They pay University and College Dues, Tuition Fees, and Establishment Charges in advance; that is to say, at the beginning of each of the three Terms they pay £11 6s. 0d. and 17s. 6d. at the beginning of the Long Vacation.

Laboratory.

There is a Chemical Laboratory in the College intended chiefly for Medical Students and others who are reading for the Science Preliminary Examinations. The Fee for attendance at the Laboratory for three days a week is £3 a Term.

Clubs.

A subscription of £2 2s. a Term, paid at the beginning of Term, admits Members of the College to the Boat Club, Cricket Club, Association and Rugby Football Clubs, Hockey Club, Lawn Tennis Club, Athletic Club, and Musical Club, including the use of the Football, Hockey, Cricket, and Tennis Grounds and Pavilion, and gives them a right to the use of all College boats at the Barge. This subscription can, with the authorisation of the parent or guardian, be charged in battels.

Miscellaneous.

The College is lighted by Electricity throughout. The use of Electric Lamps by tenants of rooms is optional. The charge for current varies according to the number of lights used.

The Taberdars' Room (where newspapers are provided) is open to all members of the College free of charge.

For the Writing Room a subscription of 1s. 6d. per Term, and for the Bath Room of 3s. 6d. per Term, is charged in battels to those who desire to use them.
